SEALINER CHRONOGRAPH YACHT CLUB PORTOFINO

PORTOFINO more than a place

Portofino is more than a place, even more than a simple word, Portofino is unique. It is history and present, a true legend and an amazing marina. One of the most exclusive in Europe, where the mountains plunge into the sea and in between flows the most authentic Italian Dolce Vita. A crossroad of the most famous people from crowned heads to actors and popstars. Portofino is the village to enjoy the most it can offer and is a natural paradise for all sea and boating lovers.

When you arrive by the sea in Portofino, it is so natural to start singing the famous song wrote by Fred Buscalgione " I found my love in Portofino" and to fall, in fact, in love with this inlet.

Enter a world inspired by the refined art of yachting, distinguished by a breezy Mediterranean spirit and a glamorous lifestyle on the open waves; where sailing and cruises or dazzling places such as Portofino are part of an incredible experience.

Cvstos is delighted to continue his partnership with the Yacht Club of Portofino with the launch of an exclusive timepiece limited to 50 pieces of each material color, the SEALINER CHRONOGRAPH YCP.

The lucky owner of this glamorous time keeper will enjoy the whole range of privileges which a Yacht Club can offer and this for a two-year membership.

The **SEALINER CHRONOGRAPH YCP**, distinguishes itself as a true inheritor of the aesthetic and technical codes of the famous models «TOURBILLON-S YACHTING CLUB and SEALINER GMT », characterized by a touch of creativity and novelty of which CVSTOS is the guardian.

The Tonneau-shaped case in steel or blue PVD Steel is beautifully placed in evidence, through the purity of its lines and volumes. This instantly recognizable architecture contributes to the aesthetic differentiation of CVSTOS in the closed circle of Haute Horlogerie.

The fascination is at its peak with this model, designed to cut through the waves of the exciting world of competitive or recreational boating prestige.

CVSTOS unveils the new codes of sporty elegance and avant-garde technology and is, on more time, **doing today what others will do tomorrow**
