CVSTOS X KAREN KHACHANOV A PAIRING OF CHAMPIONS

To celebrate the 20th anniversary of Cvstos, the brand has chosen its alter ego in sport. When the origins and passion for watches of Sassoun Sirmakes and Karen Khachanov meet, the result is a stunning doubles team.

In Karen, Cvstos has found a true connoisseur of watchmaking with a keen eye for the smallest details found in Cvstos timepieces. The spirit of conquering and surpassing oneself is shared by Karen and the entire Cvstos team.

The quest for lightness combined with an innovative design were the aspirational goal for this timepiece imagined by Karen and Cvstos.

The challenge of lightness and mobility during a match was met by a streamlined movement design, developed and produced in-house, with the use of innovative materials.

The featherweight case is made of an aluminum alloy. The movement's hand-beveled titanium bridges are enhanced by a treatment in Karen's signature blue.

The technical textile strap is ideal for use on a variety of tennis surfaces, as well as in the prestigious alleys of the center-court.

CHALLENGE K.KHACHANOV
ALUMINUM/BLUE BRIDGES/LIMITED EDITION

TECHNICAL DATA SHEETS

Watch Weight : 55 grams

Calibre : In-house calibre CVS610
