LIMITED EDITION

NEW METROPOLITAN CHRONO SKELETON

Performance is an essential value in the measurement of time and also one of the pillars of the CVSTOS philosophy. It is in the context of this coherence that the brand validates this new watchmaking style which naturally imposes itself in the noble tradition of time measuring instruments.

The CVS758 calibres are automatic chronograph movements with a power reserve of 48 hours beating at a rate of 28,800 vibrations per hour. The depth into which the skeleton version plunges us allows us to discover the multiple components animated at each pressure on the pushers start, stop and reset. The wheels that make up the movement's gear train have a circular satin finish that highlights their dynamism. The refined finishing respect the traditions of Haute Horlogerie.

Both urban and sporty, the Metropolitan Chrono perfectly symbolizes the watchmaking knowhow where technicality and finishing are pushed to the limit by the Manufacture. This timepiece allows you to combine the utility of its performance with the beauty of its design in a limited edition series.

“TECHNICAL MASTERY AND CHRONOMETRIC PERFORMANCE”.

The result of a perfect balance between extreme sportiness and elegance, the Metropolitan Chrono is an ergonomic watch designed to fit the wrist in everyday life, dynamic and sporty. The curvature of the bracelet, perfectly enveloping the curve of the case, guarantees extreme comfort. The interchangeability of the bracelet is achieved through a patented system activated by a discreet pushbutton integrated into the back of the lugs.

Both rubber and alligator straps allow you to vary your style throughout the day. Waterproof to 50 meters, the Metropolitan Chrono is available in 2 versions.

METROPOLITAN CHRONOGRAPH TITANIUM : A NEW CHAPTER WITH DENIM

Sometimes, a small change makes all the difference. The Metropolitan Chronograph Skeleton Titanium evolves once again, now available with an interchangeable denim strap.

This new strap isn't just about versatility—it's about creating a seamless balance between modernity and timeless appeal. Denim, a symbol of casual sophistication, transforms the Metropolitan into a watch that moves effortlessly between occasions.

At its core, the In-House CVS758 movement powers the timepiece with precision and reliability, while the blue skeleton dial reveals the intricate mechanics beneath—a testament to the artistry of CVSTOS.

Limited to 100 pieces, this watch is designed for those who appreciate exclusivity and detail. With the new denim strap, the Metropolitan Chronograph Titanium redefines how a timepiece can reflect individuality and adaptability.
