METROPOLITAN PS SKELETON SAPPHIRE

Launched at the WPHH 2022, the emblematic Metropolitan collection offers endless opportunities for creative growth. Its contemporary style and pure lines offer a subtle combination of character and elegance. The Metropolitan PS Skeleton Sapphire features a fully transparent sapphire crystal case in order to maximize the beauty and the fascination of this totally “urban chic” timepiece.

A subtly interplay between transparency and mechanical art

Combining horological traditions with modern styling, the Metropolitan PS Skeleton Sapphire showcases an uber skeletonized self-winding movement, developed and manufactured in-house. A parade of bridges overlapping the pierced main plate, create a beautifully balanced architectural ensemble underscored by the spectacular perspective of their complex arrangement. Styling sleek lines with geometrical harmony, the distinctive tonneau-shaped case demonstrates exquisite workmanship and displays a skillful know-how. The quest for transparency takes the manufacturing process to its limits and beckons the eye to discover the creative power of Cvstos. The remarkable hardness of sapphire, which is the third hardest mineral after diamond and moissanite on Mohs Scale of Mineral Hardness, explains the reason why it is such a challenging venture to create a full sapphire case worthy of Cvstos' high quality standards.

A strictly limited edition of 50 pieces with nothing to hide and plenty to show

Water-resistant to 50 meters the Metropolitan PS Skeleton Sapphire is a limited edition of 50 pieces, each fitted with a rubber or a hand-stitched alligator leather strap. When it comes to limited editions, the mastering of trackability is most essential. Visible through the caseback, an individual QR Code is directly engraved on the rotor. Once registered, the information provided by the QR code vouches for authenticity and guarantees a state-of-the-art timepiece servicing through a global network of authorized Cvstos retailers.

Timeless refinement and visual fascination guaranteed

Capturing the essence of Cvstos' watchmaking philosophy, The Metropolitan PS Skeleton Sapphire is purist and innovative in design, precise and reliable in function, pleasing and sophisticated in finish. A legend in its own time that combines understated elegance and style with visual clarity.
